A CONVENIENCE TO SOME, A NECESSITY TO OTHERS, AFFORDABLE TO ALL

AccessPRO®

A life-enhancing product that redefines the term "convenience"
Access Pro automates the entrance doors to homes, apartments, and offices
providing a simple convenience that fulfils a basic need.

The entrance door to a house, townhouse or any door where one side faces the elements.

Interior doors in homes such as bedroom and home office

When Office Privacy is required

The entrance door between the garage and the house.

Access Pro enhances your life and simplifies your day by removing the barriers that doors become. With remote control convenience, you can open the entrance door to your home and avoid fumbling for keys when you are carrying a child or articles.

With Access Pro, the door to your home will not be an obstacle to your independence and freedom of movement.

Accessibility for all

Family loved ones who live in Independent or Assisted Living Communities

No more fumbling for keys

WHAT DOES IT DO?

- ✓ It opens, closes and locks on command
- ✓ It uses an electronic switch to automatically lock and unlock the door
- ✓ It operates when the remote control is pressed
- ✓ One press to open and unlock, another to close and relock
- ✓ Manual operation and keyed locking can still be used even with the access fitted

BENEFITS

- ✓ Improves security
- ✓ Ease of access, especially when carrying groceries, etc
- ✓ Improves/simplifies quality of life
- ✓ Improves access for the disabled
- ✓ Compact and discreet appearance
- ✓ Can integrate to most existing security systems

The Access Pro is designed to Automate the Entrance Door to Houses and Townhouses at an affordable price.

Features:

- One year warranty.
- 24-volt electrical wiring.
