New, fully featured, sturdy, versatile and quiet. Packed with features.

The LSW- LP model is the new automation for automatic swing doors. Designed to offer a versatile and fully featured solutions, this automation boasts a set of distinctive features, allowing it to be used in a wide range of operating conditions:

- opened and closed by a motor;
- opened by a motor and closed by a spring (Optional);
- on emergency exits;;
- low energy for disabled access.

Sturdy, hard wearing and quiet, it is ideal for very heavy duty applications. The Logic Swing LP boasts a new and smart design and very clean lines. The LSW- LP complies with the strictest Australian standards.

Sturdy and versatile, ideal for very heavy duty applications. (115 x 175 x 680)

A must in all demanding environmental conditions, such as external doors exposed to the wind and to the elements. It is a solid, hard-wearing, heavy-duty and noiseless automation which can be used also on doors with two synchronized wings (master-slave function).

Auto Ingress operators interface with all building management trades such as Fire Alarm companies, security companies, access control companies and many more.

Other options available are, push arms, slide arms, State of the Art Digital Mode Pad, master keyed key switches, presence sensors, electric locking digital key pads, access control systems, service contract options, special disability access switches and many more.

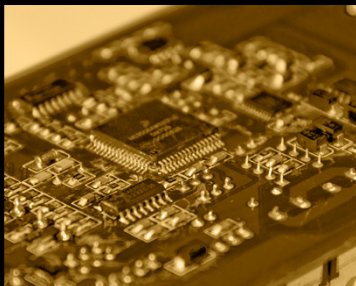

Auto Ingress Warranties provide true peace of mind - 2 year parts and 12 months labour.

This slim line design of Swing Automatic Door Systems is fresh, appealing and safe. If this is the style for you, then don't hesitate, call your State Representative now:
